MEMORANDUM FOR THE RECORD:

SUBJECT: CIA directional signs at the Route 123 Project

1. On 8 December 1987, the New Building Project Office (NBPO) received the attached memorandum stating that the Associate Deputy Director of Administration requested no CIA directional signs be installed along the Route 123 realignment project.

2. In response to the memorandum, I immediately contacted the Virginia Department of Transportation (VDOT) project site inspector (Doug Barnett) and requested that the CIA signs not be installed along the project. Doug Barnett thought that no CIA signs had been installed and said that he would alert the contractor (Shirley Contracting) to our request. The following day I visited the project site and again discussed our request to delete the CIA signs with the VDOT inspector. The project manager for Shirley Contracting was present and had already contacted his sign subcontractor regarding our request. In addition, I contacted the VDOT project manager, Don Silies, to alert him to our request and to my discussions with Doug Barnett. Don was already aware of our request and said that he had no problems with it. Don asked me to document our request and I prepared a letter to VDOT dated 9 December 1987.

3. Based on the above actions I am reasonably assured that the CIA signs will not be installed. I also requested that if the signs have already been manufactured then we would like to take possession of them.

STAT MEMORANDUM FOR: Chief, New Building Project Office, FMD, OL

FROM:

Chief, Operations, FMD, OL

SUBJECT: Route 123 Road Improvements

During a tour of the Scattergood-Thorn property today, the Associate Deputy Director for Administration requested that your office instruct the Virginia Department of Highways and Transportation not to reinstall the "CIA" directional sign at Route 123.
